Drawings to download as scheduled on the attached drawing register:

Drawing Schedule.pdf

Dear Rachel,

Please use the link below to download Planning and Listed Building Consent drawings ready for upload to WCC.

<https://hopkinsarchitects.box.com/s/0qulg0xv9k831ixxn2uvbxb6p0ly0efn>

These have been organised into folders for the six Listed Building Consents and the Planning Application.

Within the Planning Application folder there is a PDF titled "Drawing Schedule" that lists all the drawings across the submissions. The relevant, individual pages of this have been extracted and included within each of the Listed Building Consent folders. These are also titled "Drawing Schedule", but have the relevant address of the LBC appended. These identify which drawings are included within the folder, with duplicates of the Planning Application drawings included where necessary.

The drawings within the Planning Application folder are grouped into sub-folders to keep them organised. It's understood that all these drawings will be uploaded together.

Please let me know should there be any issues with the files.

Regards

Andrew
